MEDICO'S TROUBLE.

Tried to Save Life and is Jailed.

Susan Geary's Untimely End Affects Standing of Dr. Percy DeM. McLeod.

Nathan is Now Connected by Police With the Fatal Negotiations.

Connections of Crawford, Hunt and Miss Tinnin are Traced.

(BY DIRECT WIRE TO THE TIMES.)

BOSTON, Nov. 3.—Dr. Percy DeM. McLeod of this city was arrested this afternoon on information furnished by Chief

Watts from New York. Dr. McLeod is held on the charge that he was the person who dis-

membered the body of Susanna Geary.

Police-Captain Dugan today obtained warrants for the arrest of Crawford and Howard on the charge of committing a criminal

operation on the young woman. A warrant was also issued against Howard, charging him with being an accessory after the fact.

The condition of Morris Nathan, the author, was better today than yesterday, and he seems to be gaining.

On the strength of the alleged statement by Timothy Howard, one of the New York suspects, that the head of the suit-case victim had been thrown from a ferryboat into the Boston harbor, the police today began dragging the bottom of the harbor.

BOSTON, Nov. 3.—[Exclusive Dispatch.] Dr. Percy DeM. McLeod, a Back Bay physician of national reputation as gynecologist, a Harvard graduate and member of the Massachusetts Medical Society, was arrested by the police, today, on orders from the chief of detectives, who is in New York, as being the principal in the Susan Geary case. His arrest followed the confessions of Louis A. Crawford, son-in-law of Dr. Jane Bishop, connected with the notorious Bishop malpractice institutions, and of William Howard, who is under arrest in New York.

Dr. McLeod, it is understood, has been indicted as the man who performed a separate operation upon the girl in a desperate attempt to "save her life" and failing, dismembered her body. Dr. McLeod graduated from the Harvard Medical School in 1894 and entered the City Hospital as house-surgeon, completing a post-graduate course there in 1896.

NATHAN'S ARRAIGNMENT. BY THE ASSOCIATED PRESS.—A.M. BOSTON, Nov. 3.—Nathan was brought to court Monday. While at first the police were of the opinion that Nathan was not directly connected with the case, they now say that Nathan conducted the negotiations with the proprietors of the Tremont street establishment, and the place with which Crawford was connected, and that he was fully aware of the result of the operation. Tonight, the police directed their efforts toward locating another man, formerly connected with the Tremont street office.

THE NEW YORK END. BY THE ASSOCIATED PRESS.—A.M. NEW YORK, Nov. 3.—Superintendent Pierce of the Boston police, and Chief Watts of the Massachusetts State police, arrived today, accompanied by the witnesses in the suit-case mystery who left Boston at midnight with the police officials for this city.

When the Boston party arrived at police headquarters today the prisoners were brought out for inspection. Chief Watts recognized Crawford and said: "I feel sure Crawford is the head man in this case. He was the principal at the house of Dr. Bishop and it was through him, I believe, that Howard, or Hunt, as he calls himself, was brought into the case."

Chief Watts said that the case against those who caused the death of Miss Geary was practically closed now, but there probably would be other arrests within a few days.

Crawford was dressed by order of the New York police in gray clothing which was first seen by the Boston police officials and their witnesses. He had on the same clothing he is believed to have worn in Boston while making his alleged trip with the suit case to Boston harbor.

In his room at No. 72 West Eighty-

second street, the police found a gray suit and a long slate-colored rain coat, both of which resembled the clothing that cabman Howard said the man wore when he drove from Boston to Chelsea.

When the cab driver saw Crawford, he immediately identified him as one of the two men who were in his cab with suit cases, on the night when the girl's body was thrown into the harbor. He also identified the prisoner Howard as Crawford's companion that night.

Later, the two pawnbrokers and one of the pawnbrokers' clerks identified the prisoners. Meyer Kaufman, the clerk, said that Crawford, when he entered the pawnbroker's store to set a suit case, said he had thirty pounds of shot in the satchel he was carrying.

The New York police announced, after the identifications, that Crawford, who was reticent when arrested last night, said he was one of the men who helped to dispose of the body. The prisoners were arraigned in the Tombs court, but were remanded to the custody of the police without examination. They are held on a short affidavit charging conspiracy, based principally on Howard's confession.

Police Inspector O'Brien said that Crawford admitted having purchased the dress-suit cases and to having taken portions of the girl's body to the river, but denies having any hand in the death of the girl.

MISS TENNIN'S CONNECTIONS. BY THE ASSOCIATED PRESS.—A.M. WALTHAM (Mass.) Nov. 3.—Miss Tennin of this city, the young woman whose name was found on an envelope in the pocket of Louis Crawford, one of the men arrested in New York in connection with the Boston dress-suit case tragedy, is related to Mrs. Dr. Jane Bishop, formerly proprietress of a medical office on Tremont street, Boston.

SHE'S IN FIGHT TO BITTER END.

MAE C. WOOD TALKS OF HER SUIT AGAINST PLATT.

Declares She Will Not Give Up Until She Gets Service on Defendants and Brings Them Into Court—Says She is Not Seeking Revenge, but Simply Justice.

(BY DIRECT WIRE TO THE TIMES.) OMAHA, Nov. 3.—[Exclusive Dispatch.] Miss Mae C. Wood, who yesterday filed in the District Court here a suit for \$150,000 damages against Senator Thomas C. Platt and others, declared today that she meant business when she filed her suit, and will not give up until she gets service on the defendants and brings them into court to defend the action.

"I have been shamefully, cruelly treated by these men," she says, "and if they think they can escape me they are laboring under a delusion. I am not seeking revenge; I am simply seeking justice, and I shall get it if the courts can give it to me."

"These men, in their might and their meanness, not only have tried to destroy my character, but they have robbed me of thousands of dollars' worth of property as well. They have money and great social and political influence, while I am a poor lone woman without money and without powerful friends. But, despite these handicaps, I shall fight them and bring them to justice. I'm in this fight to stay to the bitter end."

Miss Wood is a member of the Omaha bar, having been admitted there some twelve years ago. When she went to Washington to accept a clerkship in the Postoffice Department, and thus far she has acted as her own attorney in the damage suits she has filed against Senator Platt and others. She says, however, that if the suits come to trial, she will have counsel.

In the petition in the suit she filed yesterday, Miss Wood refers very respectfully to Senator Platt's wife. She appears determined to follow up and annoy as much as possible the New York Senator, who she declares, was once engaged to marry her.

MANY HOMES AT STAKE.

Legal Battle in New Mexico Over a Quarter of Million Acres.

(BY DIRECT WIRE TO THE TIMES.) EL PASO (Tex.) Nov. 3.—[Exclusive Dispatch.] A quarter of a million acres of land and the homes of 200 settlers are at stake in a legal battle which is being fought in Santa Fe, N. M. Under the Statute of Limitations, this case claim owners have to sue within ten years and have dwelt upon un molested for ten years and more.

The United States Freehold Land and Immigration Company claims title under an old Mexican land grant. The original grant was 1,000,000 acres. In two counties, all of which has been sold save the tract now in litigation.

PREVENT RECURRENT OF RIOTS.

VIENNA, Nov. 3.—A strong guard occupied the square in front of Hofburg Palace this evening in order to prevent a recurrence of the riots of yesterday. At a meeting of the Provincial Diet today the Governor of Lower Austria announced that the question of universal suffrage is now in a fair way toward legislative settlement.

AMNESTY UKASE IS SIGNED BY NICHOLAS.

Embassies are Besieged by People Anxious Over Situation in South.

Cossack Patrols Everywhere Enforce Quiet in St. Petersburg—Political Strike is Declared Off—Liberals Fail to Support Witte—Censorship Throughout Empire Abolished—Reactionaries at Court Plotting.

(BY THE ASSOCIATED PRESS.—P.M.)

ST. PETERSBURG, Nov. 3.—[By Atlantic Cable.] The amnesty ukase has been signed.

Judging from the frantic appeals which are reaching the embassies here, the greatest alarm prevails among the foreign residents in South Russia for the safety of themselves and their property. The German, Austro-Hungarian and British embassies are making energetic representations to the authorities to furnish ample protection.

SOLDIERS TURN REVOLUTIONISTS.

(BY THE ASSOCIATED PRESS.—P.M.)

WARSAW, Nov. 3.—At a Socialist mass meeting this morning two infantry soldiers in full uniform delivered revolutionary addresses, assuring their hearers that the revolutionary propaganda was growing in the army and the time was not far remote when the army would join in a revolution to overthrow a despotic throne.

ST. PETERSBURG, Nov. 3.—All is quiet here. There is no attempt at holding processions and the Cossack patrols are everywhere. Ships have been barricaded and railway communication with the frontier has not yet been restored. The newspapers will appear tomorrow and the electric light plant here has again been put in operation.

Today Count Witte and Prince Obolensky received the leaders of the Progressive Constitutional party, including prominent members of the Municipality.

Anti-Jewish disorders are reported from Theodosia, where a number of Jews and others were burned to death. In a revolutionary outbreak in Koprman many were killed or wounded.

Another Grand Duke Gone.

The Grand Duke Alexander Michaelovich, brother-in-law of Emperor Nicholas, has been relieved of the post of head of the Department of the Maritime Marine. He is the last, influential quintessence of Grand Dukes who have been the advisers of the Emperor, Grand Duke Alexis and Michael Nicholas having been relieved of their posts as, respectively, Grand Admiral, or head of the navy, and President of the Council of the Empire, and Grand Duke Vladimir having been relieved of the post of Minister of the Interior.

The decision of the strike committee to call the strike at noon today was received with joy by all classes of the population, as the absence of newspapers, electric light and other conveniences of life is severely felt. The railroad men, however, have resolved to continue the strike, which entails a continuance of the high prices of provisions.

The censorship throughout Russia.

HIS CURRENT VIKING TO THE TIMES.
SEATTLE, Nov. 3.—[Exclusive Dispatch.] Miss Rosemary Grover won material advantage in the trial of her suit to force Mayor Zook of Ballard to pay her \$25,000 for breach of promise by a ruling of the court this morning. Judge Albertson stated that he would be inclined to instruct the jury that if Mayor Zook made promise to marry the girl with full knowledge that she was pregnant with his child, and that with this knowledge in his possession, he had continued to court her, to so neglect her affection and when after winning them, he had persuaded her to marry him, and had held her out to the community as his intended wife, that the girl was entitled to recover damages.

Robbins of Armour Lines Defies the Commission.

Sproule is Examined About "Pooling Contract."

J. H. Call Takes Hand in the Investigation.

(BY DIRECT WIRE TO THE TIMES.)

WASHINGTON, Nov. 3.—[Exclusive Dispatch.]

George B. Robbins of Chicago, president of the Armour private car lines, practically told the Interstate Commerce Commission that it had no right to inquire into the personal affairs of his company, as it was not interested in interstate commerce business, was not concerned in transportation charges, and only concerned itself with rentals for its cars and their being in operation.

Robbins was now engaged in the fruit and produce business.

Robbins was the star witness at the hearing before the commission, today, but he was not considered very profitable to the investigation.

SCOPE OF EXAMINATION.

(BY THE ASSOCIATED PRESS—P.M.)

WASHINGTON, Nov. 3.—The examination of Robbins was intended to show that the Armour car lines, through Armour & Co. or other concern controlled by the same concern, was engaged in business other than that of leasing cars to railroads and refrigerating perishable shipments.

Sproule was examined regarding an alleged "pooling contract" between the Southern Pacific and Southern California railroads.

When the information was denied to the commission, it was announced that the hearings would be adjourned indefinitely. No action was taken regarding the denials.

Robbins testified that the Armour car line owned 12,000 cars, and was about to answer a query as to the capital stock of the company, when Attorney Eckman of the Armour company interposed an objection that the Armour line was not engaged in interstate commerce, and averred, therefore, that the commission had no jurisdiction.

In the transportation business, in support of Eckman's contention that the Armour car line is not engaged in interstate commerce, but is solely in the business of leasing cars and furnishing refrigeration.

Robbins testified that the Armour line has no part in fixing charges for transportation. Charges were taken by the railroads, and the testimony of the witness, Barry said he could show that the Armour line was not engaged in interstate commerce, and averred, therefore, that the commission had no jurisdiction.

DASHING "LADY" MAY BE THIEF.

Mystery Cloaks Blueblood
Held by the Police.

Losses at Many Homes are
Laid to Her Cunning.

Valuables Missed After Call
of Smooth Visitor.

Concha Rivera, a dashing Spanish woman, in whose veins some of the blood of the Castilian is said to flow, is locked in the City Jail and kept incommunicado while the police are investigating charges against her. If proved, they will stamp her as an exceptionally clever woman burglar and all-around crook.

The woman was arrested yesterday morning by Detective Talamante. She was plentifully supplied with gold and greenbacks when searched in the woman's ward of the jail, but to the matron she would say absolutely nothing concerning herself. A handsome locket set with precious stones and other articles of jewelry were found secreted upon her person. These, the police are convinced, were stolen, and efforts are being made to locate the owners.

The detectives have made no specific charge against the woman, but they admit she is possessed of exquisite cunning, and that they are trying to locate her accomplices, and to connect her with several recent burglaries, perpetrated in broad daylight, in which she is supposed to have been implicated. An air of complete mystery surrounds the prisoner, and, as far as they will, the officers have been unable to pierce the veil of secrecy which she has drawn about herself.

Complaints have been received by the police recently from several residents of the southwest part of the city, concerning the operations of a dark-complexioned woman of apparent Spanish descent, who has been soliciting subscriptions for a well-known eastern publication mainly interesting to women.

The visitor always made a good impression when she gained the ear of the woman of the house—and this she repeatedly did if the slightest opportunity was afforded—but after her appearance pieces of jewelry, rare bric-a-brac or articles of vertu were frequently missing.

Rarely, indeed, did the unfortunate housewife attribute her losses to the dignified, well-bred woman with the well-modulated voice and persuasive manner. In many homes, the servants were suspected and systematically watched. But eventually the impression was gained that the gentle appearing stranger was not all she seemed to be, and after comparing notes, the women whose homes had been visited by the woman were, by a singular coincidence, found to have been robbed.

When the police had been notified that they can connect the woman now in jail with these singularly bold and cunningly planned robberies, the department against her, and sensational developments are expected.

NOT KILLED BY TRAIN.
CORONER ON MRS. TODD CASE.
BY THE ASSOCIATED PRESS.—A.M.
NEW YORK, Nov. 3.—Coroner Sawyer, following an autopsy on the body of Mrs. Margarita Todd, the rich woman who was found dead in the Reading railroad tracks near Philadelphia a week ago, today said that the woman could not possibly have been struck by a train. He said she could easily have been killed by some heavy weight falling on her while she was inert, or by pressure of a knee. The autopsy showed that the ribs had been fractured, as was also the breast bone. Her clothing, the coroner said, was not disarranged in the slightest. She was smooth and neat. Had a train struck her, the coroner said, the clothing would have been disarranged and torn.

Mrs. Todd drowned the fact that she was married to a man who was a wealthy and aged recluse, for whose murder by means of chloroform Albert T. Patrick, his counsellor and confidant, has been sentenced to the electric chair. "I often compare myself to my present circumstances with old Mr. Rice in that Patrick case," this was the remark Mrs. Todd made only a short time before her body was found beside the Reading railroad tracks in Philadelphia. She had been telling her friends that she was going to Philadelphia in detail efforts that she said had been made to persuade her to sign papers in case the direct route of her estate, amounting to a sum variously estimated at from \$250,000 to \$500,000.

TRIED TO POISON CHILD.
ARSENIC IN CANDY SENT.
BY THE ASSOCIATED PRESS.—A.M.
CHICAGO, Nov. 3.—Suspicion that arsenic was put in the candy said to have been sent to Mrs. Lina Elizabeth Sangster of Bloomington, Ill., has caused an investigation by the state chemist and the state attorney. Chemists are testing the candy to discover what ingredients in the candy caused the severe illness of Mrs. Sangster's twelve-year-old daughter.

Mrs. Sangster, charging alienation of her husband's affections, is suing for \$100,000 damages. Sangster is a salesman for a candy company.

Prof. Haines of Rush Medical College reported today that a chemical analysis of the candy showed the presence of arsenic in sufficient quantities to produce death.

VALLEJO POSTOFFICE ROBBED.
OF STAMPS AND JEWELRY.
BY THE ASSOCIATED PRESS.—A.M.
VALLEJO, Nov. 3.—The Vallejo postoffice was entered by burglars some time between 1 and 5 o'clock this morning. Both the large postoffice safe and the postmaster's private safe were broken open with chisels, soap being used to deaden the noise.

The investigation shows that \$250 worth of stamps and many registered letters were taken. Jewelry valued at \$300 belonging to Postmaster Luchingers and his wife was also stolen. The robbers failed to reach the inner compartment of the postoffice safe, which contained cash.

The electric light was burning in the hall all night, and the police say they detected the place four times during the morning.

WRIGHT GREAT SEND-OFF.
MANILA, Nov. 3.—The public reception today was attended by American, foreign and Filipino. It was a most brilliant affair of the kind given in the Philippines. There were many manifestations of loyalty, and the hope was generally expressed that Gov. Wright would return to the United States. The parade took three hours and the point where the Gov. was stationed. A civic ball followed the reception.

The Broadway Department Store

SALE OF MEN'S WINTER SUITS AND OVERCOATS

A Blending of Style, Worthiness and Economy

HIGHEST GRADE CLOTHING AT DEPARTMENT STORE PRICES

If you are told that there is a special grade of clothing made for department stores which is inferior in style, quality of materials and workmanship to the lines carried by exclusive dealers don't you believe it, for it is absolutely false. Such makers as B. Kuppenheimer & Co., Chicago; Henry J. Brock & Co., Buffalo; The Clothcraft Co. of Cleveland, and other makers whose products are advertised in all the leading magazines, put their best efforts into every garment which bears their label. Any department store or other dealer appropriating any of the well known makers' labels and attaching them to nondescript garments would be prosecuted immediately. The marked difference in price between the exclusive dealer and the department store for the same class of merchandise is simply a demonstration of the difference in business methods. We sell in a day several hundred suits at a price whenever we advertise a clothing sale. Our outlet for clothing is greater than the combined outlet of half the clothing stores in town. We buy in greater quantities, therefore at lower prices, and sell at a closer margin of profit and the benefit is yours. Our clothing offerings for today bring to your notice several special lines of Men's Clothing at prices which mean a handsome saving to the purchaser. Men's Clothing Section, Second Floor.

The Flying Machine has come to stay. The children are having more good, genuine fun with it than any anything they ever had. And it doesn't cost one single cent, either. All you have to do is to get your mother to give you the cover from a can of Ghirardelli's Cocoa and bring it to us. If your mother doesn't use Ghirardelli's Cocoa, ask her to get some right away. It is a genuine treat with its rich, creamy, delicious flavor and perfect healthfulness. And, remember, the cover of every can is worth a Flying Machine. Get a can and take the cover to The J. E. Cook Mercantile Co., Alameda and Ducommun Sts., Los Angeles, Cal., and they'll give you a brand new Flying Machine for it.

AUBLE SPOTS VILE THEATER.

Chief of Police Moves to Shut up the Dive.

Disgraceful Display on Main Street to Cease.

Caters to Toughest Class in Ugliest Way.

That the license of a "leg show" on Main street be revoked is the request that will be made by Acting Chief of Police Auble.

The Times does not propose to advertise this dive by mentioning the name it goes by.

Plain-clothes men from the Chief's office have been watching it and yesterday made a report. Acting upon this information the acting Chief will ask the City Attorney today for the

proper procedure to put this vile show out of business and revoke the license of the theater.

He does not consider that a display of anatomy with no men on the stage and no women in the audience, advertised by pictures of women in union suits of underclothing, is a desirable addition to histrionic art in this city.

The show that has been going on in this joint a couple of months has excited even the disgust of other theater people, who are not squeamish.

The details of its worst features are quite impossible of description. If some of the so-called witticisms were repeated in print, The Times would be inevitably thrown out of the mails.

Every trick of theatrical art is resorted to to appeal to the basest passions of the rough-neck that floods into the city with ten, twenty or thirty cents.

PACKED WITH BUMS.

Although the law forbids the sale of standing room, bums are packed in there so densely that the "bonanza" sometimes has difficulty crowding through the rear aisle.

Lowest of the scum makes up a large part of the audience. As these situations are displayed for their mental debauchery they meet an instant response in unpeaky vile remarks that pass to and fro among the crowd of hoodlums.

Many of them are young boys. Here and there one may see the lowest type of physical degenerate gazing, wallowing his cramped, filthy soul in the nasty talk and practical nastiness of the women.

You can hear cheap young sports, in flashy attire, discussing their experiences of the stage like the tenor of stage women. On this particular night one of the insects was a stranger and the other was allowing him to pick out the one he wished to be introduced to.

The talk of these young blackguards was carried on quite cheerfully, in an ordinary conversational tone, and was unpeppery.

Several of the men in the audience were drunk. One was desirous of walking up and down the middle aisle, leading the orchestra. When the refined and coy damsel with legs like beer barrels, strolled suggestively back and forth, just back of the foot lights, he gave a joyous whoop and "hollered" for her to come back.

STAGE FULL OF GIRLS.

The advertisements of this show say "All girls" and it is nearly so. Just enough men are on the stage to bring out more forcibly the smutty points.

One of the bills posted over the town has four girls in lights, each one appropriately labeled with lines like this: "What do you think of this, fellows?" and "A lot more like this one."

It seems incredible that there could be any man low enough to pander to these blackguards for money.

No pretence of good singing is made in this show; it is a cold-blooded, frank question of shape.

The leading lady has a soprano that is recalled to us in fond memory every time the trolley cars go screeching around the corner of First and Broadway. But she is a big fat, squat thing, with legs like a piano.

Her hauteur toward the other legs in the company is as cold and distant as a Patti or an Emma Eames toward a new chorus girl. That one should claim to be a singer and "squeak" over

ORANGE FIRST WITH ORANGES.

Sends Out Season's Earliest Shipment to East.

May Reach Markets Ahead of Northern Fruit.

New Selling Plan Tried With Apparent Success.

Orange county has furnished justification for its name by sending forward the first car load of oranges from Southern California this season to the eastern market, for the Thanksgiving trade.

The little section, my county to the south is the early bird that gets the market worm this year. It had the longest pole and knocked the persimmon, or, rather, the better known golden spheroid from which the ranching section obtained its name.

Proud as a totting boy with his first pair of red-topped boots—the boy of a generation ago—Orange county is sending out today two car-loads of navel, well colored, of fine size and of remarkable sweetness for this time of year. These cars will make a golden streak across the country by the southern route, and it is expected that they will get into New York days ahead of the much-vaunted early shipments from Northern California, thus shattering an idol that has been the object of more or less devout worship up there for some time past.

Be it known that Tulare county shipped its first oranges two days in advance of those from Orange county, but quicker dispatch via the eastern grades of the southern route, is expected to overcome this handicap and to place the Southern California fruit in the hands of dealers in fancy fruits on Broadway, Fifth avenue and other select quarters in New York some time in advance of that from the North.

FRIDE OF ORANGE.

The new crop navel oranges shipped from Orange by the Atlantic Fruit Company of this city, the fruit being picked at that point by J. R. McGinnis, agent there for the Atlantic company. They are genuine Orange-county oranges, and bear the well-known label "Orchid," which is declared to stand for the same quality in fruit that it represents in the floral kingdom.

NEW SELLING PLAN.

This transaction is declared to mark a new departure in the selling of citrus fruit, and it is predicted that the new selling plan will appeal to eastern buyers, who are likely in considerable number to make their purchases through the cash.

General Manager Thomas C. Evans of the Produce Reporter Company, is elated over the success of this opportunity to try the new plan on the first shipment from this section this season, and it is expected that shippers as well as buyers will be interested in the new plan.

THE SHIPMENT.

The shipment now going forward is several days in advance of last year's first shipment, when a Whittier shipper carried off the palm. It is not expected, however, that other shipments will follow within two weeks, and, of course, it will be much later than that of the shipping season will be on in earnest, for the crop is slow in ripening this season and shippers do not anticipate the forwarding of fruit in any volume before January.

EL MONTE'S FIRST SHIPMENT.

A cracking big shipment of walnuts has just gone forward from El Monte, the first of the season's harvest, which promises to be the greatest ever known in that section.

There were twenty-two carloads in the lot—nearly a full train—and there are many more to follow.

WAGONS LOADED.

Wagons laden with their burdens from the walnut groves stood in a line that extended for more than half a mile as the cars were being loaded at the railroad station. As fast as the cars on the side track were loaded they were pulled away and other took their place until the last of the waiting wagons discharged its cargo.

ON SPEEDING TRAIN THEY CELEBRATED.

THEY celebrated their sixty-first wedding anniversary, while the train whizzed through space bearing them from the snows and ice of Chicago on to sunny California, the land of flowers and amies.

Only a few days ago did Mr. and Mrs. Newton Webster arrive to visit their son, E. C. Webster, assistant secretary of the Pacific Coast Home Supply Association, residing at No. 1224 West Thirty-ninth street. The elder Mr. Webster is just 85 years of age and his sweet white-haired wife is 81.

Passengers on the train from Chicago were treated to a rare celebration, inasmuch as the happy old couple made much of the anniversary of their sixty-one happy years together, and received a shower of congratulations from the many friendly travelers with them.

The aged people are natives of New York and have resided in the town of Fabius, about twenty miles south of Syracuse, nearly all their lives, and are well known and respected in that entire community.

Mr. Webster has never used liquor or tobacco in any form, and has but few gray hairs. He works almost constantly in his garden and looks much younger than his years. Mr. Webster is a veteran of the Civil War and many are the stories of those strenuous times which he can relate, for he saw much active service at that time.

Mrs. Webster is exceedingly active for her years and thinks nothing of walking three or four miles at a stretch. She is an earnest temperance worker. Mr. and Mrs. Webster express themselves as most pleased with Los Angeles, and it is hoped by their friends that they will decide to remain here. Should they determine to make their home here doubtless our matchless climate will add many years to the lives of this youthful-spirited couple.

more to throw up his hands and hand over all the available cash in the place. The request was complied with and the robbers departed \$10 richer.

As the men were leaving the place one of them, wearing a black mask, discharged a revolver through a front window. The bullet came near going wild of the mark, striking near the top of the pane and the man behind the trigger was something of a novice at the game. The shot was fired, it is believed, in order to frighten the occupants of the saloon and preventing pursuit. As soon as the men were gone a squad of detectives went to the scene.

GETS SIX MORE CARRIERS.

BETTER MAIL FACILITIES FOR THE WHOLESALERS.

New Sections of the City Will Also Profit by the Increased Service Afforded by Yesterday's Appointment—Districts to Which the Carriers are Assigned.

Postmaster M. H. Flint telegraphed the Postoffice Department yesterday that one of two things had to be done; he must either have six more letter carriers or the service would have to be curtailed. He received immediate reply that he could put the additional men on and they will be added to the force Monday, thus increasing the total number of carriers to 167, with thirty more as substitutes.

One of the best results of this will be the giving of five deliveries daily to the wholesale district on Los Angeles street, for the first time. For years they have had but four deliveries, and the additional man will not only give them their mail that much quicker, but will reduce the bulk on each trip. Two increased deliveries in the territory bounded by Hoover, San Marino and Eighth streets and Commonwealth avenue, also in territory bounded by West Tenth and West Eleventh streets, Menlo avenue and Hoover street.

One to increase deliveries in territory between West Sixteenth and West Washington streets and Normandie and Oxford avenues, extending delivery to Santa Barbara and West Forty-second streets, between Moneta avenue and Figueroa.

One business carrier, assigned to Station C, to increase deliveries in wholesale district from Broadway street from Arcadia to Fourth street, from four to five.

Two, assigned to Station Arcade, increasing deliveries on East Fifth street, from San Pedro to Arcade Depot, and extending delivery to East Tenth—first street from Long Beach avenue to Alameda street; also relieving the congested conditions in the southern section of the city, West Forty-eighth and West Fiftieth streets, Main street and Moneta avenue; also South Flower street between Thorpe and Malcolm streets, to be given one delivery.

One to increase the service in Garvanza from one to two deliveries, and perfecting the present delivery in Highland Park.

VERNON ALARMED.

Trustees Fear Water Company Will Run Open Ditches, Irrigation Man Says Not.

Citizens of Vernon are facing what is to them the most perplexing problem they have yet had to solve, namely, to solve a member of the Board of Trustees.

The report was circulated yesterday that a company recently organized with the purpose of running open ditches containing waste water through the principal streets of the new town. This is the Southern Water Company, and it has the contract to carry away Los Angeles waste water flowing down Alameda street.

According to one of the Vernon trustees, the new company has a line of large pipes along Alameda street to Slauson avenue. There is apparently no objection to this plan. What the citizens do strenuously oppose is the reported intention of the company to dig open ditches along Santa Fe avenue to Vernon avenue, and thence along Topinka street, to convey the waste water.

South of Vernon is a large tract of land owned by the new company. The water is to be used for irrigating purposes on this wide acreage.

Vernon citizens say they have no objection to the water being used for irrigating purposes, but they want all the waste fluid conveyed through their town in pipes.

Edward S. Shattuck, who is a member of the company, last night disclosed an intention of doing anything against the wishes of the citizens of Vernon. He had heard of a possible protest and was not aware that the plans of the company had caused consternation among the citizens of the new town. Said Mr. Shattuck:

"The plans of our company are as yet immature. There is really nothing to be said at this time regarding the proposed carrying of the water through the town of Vernon. We will not do anything that will conflict in any way with the desires of the citizens, and we would not try to carry water through an open ditch against the expressed wish of the corporate body."

"Our flow of water amounts to about six million inches. This we can use on our ranch south of the city. We have been asked to supply private individuals with water, and as yet have given no reply. Several parties are negotiating with us for a part of the water, and I cannot say at this time just what we will do."

Mr. Shattuck said he does not think his company will at this time ask the trustees of Vernon for a franchise in the conveying of waste water in open ditches through the town.

SMALLPOX SCARE.

Tourist Asks Health Officer for Diagnosis After Exposing Many Persons Since Arrival Here.

"Say, I've been feeling sick for several days and thought it might be only due to change of climate, but I want to look up and find out what's the matter with me."

Thus spoke a man, evidently a tourist, to the desk clerk in the City Health Office yesterday morning. The request was not an unusual one, for such applications are often made there, but the office force was not prepared for the panic which followed. One of the doctors examined the man and then uttered one word which emptied the office of all save him and his patient. The word was "Smallpox."

The incident would be comical were it not really serious and regarded with something akin to alarm by the health authorities. The fact that the man suffering from smallpox, and the case well developed, too, having entered the City Hall is not without causing the uneasiness. It is the story the man tells of his own movements recently. He admits that he has been in several barber shops, has occupied chairs in hotels, has ridden on crowded street cars, mingled with crowds in public parks—in short, has probably exposed scores of other persons to the disease. In many cases the contact has been so close that, were it possible, the persons thus exposed would be placed in quarantine, but no one knows who they are and they, themselves, are ignorant of their danger, if they be in danger.

The man stated that he had arrived here a few days ago from Northern Indiana. He became ill a day or two ago, but sought to combat the illness instead of seeking medical treatment. He was taken to the Detention Hospital as soon as possible. The case is not one of virulent form, but it had developed to such a degree as to be communicable to those with whom the man came in contact.

CHILD STUDY CIRCLES.

State Convention Coming to Los Angeles in Few Weeks—Organizing at Beach.

Mrs. W. W. Murphy yesterday organized a child study circle at Huntington Beach.

The University of Southern California this week organized a circle under the leadership of Mrs. A. B. Armstrong.

Local officers are making elaborate preparations for the State convention of child study to be held in Los Angeles the 21st. Delegates from all parts of California will be in attendance. Among the speakers of prominence will be Dr. Millsap, president of the State Normal School, Mrs. Emma Greenleaf, of Long Beach; Miss Mary May of this city, and Miss French and Mrs. Jessica Harward of the Normal School. The latter two will direct a symposium on "Home Keeping."

ASSOCIATIONS ARE BOOMING.

Fine Report by Secretary of Men's Organization.

Young Women of Los Angeles Lead the World.

Lawyer Now Superintends a Rescue Mission.

Secretary D. E. Luther of the Young Men's Christian Association, who came here from Atlanta, Ga., three months ago and has been in the work of the local association, made his first report to the board of directors yesterday. In his preliminary remarks the secretary said:

"Personally, I want to say that never in my experience in association work have I seen the work respond to push as it has done in this city, and I can also say that I have never seen a more loyal set of young men than the young men as a whole who are members of this association."

He announced that the Fred B. Smith Personal Workers' Club, besides holding regular meetings at the association building, will hold one meeting each week at Grace Methodist Church, at Third and Hewitt streets. This association of the educational work under Mr. Austin indicates the growth of the association. He said:

"The growth of Los Angeles, from one year to another, is reflected in the following statistics: Our entire enrollment for night-class work for the season of 1921-22, was 232; during the first two months of this season we have already enrolled 200, and I am willing to predict that we will reach 300 before the season closes. Our educational receipts for the whole of last season amounted to a little less than \$300; for the first six days of this season the receipts amounted to \$125 more than double that taken in for the entire previous season, and nearly three times the amount received from the same source during September and October of last year."

Of the work among the boys under Mr. Sharp, the secretary spoke in the strongest terms, and warmly commended the Saturday afternoon trips of the Hiking Club. In the physical department he said the work was of the most gratifying character and recommended the appointment of Dr. Sweet as medical examiner for that department.

He stated that within sixty days young men have put into the institution 1448, notwithstanding the unfavorable surroundings of the temporary quarters. During the month of October 236 members were received, and it is expected to specify bring the total membership up to 2500.

FROM BAR TO PULPIT.

MISSION SUPERINTENDENT.

From the bar to the pulpit is not a new path, but it is not generally known that a brilliant young lawyer, who has been admitted to the bar in Los Angeles county a few years ago, has since become a preacher and is now at the head of the Good Samaritan Mission in this city.

Rev. J. D. Habbick, soon after his admission to practice law, settled down at Pasadena to take up his chosen work, but the current of his life was suddenly changed by a revival meeting at which he was converted to Christianity, and he immediately gave up the law and went to the Moody Training School in Chicago and fitted himself for religious work. Recently he has been preaching at Ferndale, Cal., but he has just been chosen superintendent of the Good Samaritan Mission and will make his first public appearance on Sunday.

He succeeds Mrs. Bertha Johnson, who started the mission in her own house about ten years ago and who has had charge of it up to this time, though it now occupies a large four-story hotel building at San Fernando and Orange streets. In making the transition to this large building a few years ago, Mrs. Johnson overcame her hesitations and once before was compelled to take a rest from her labors, though she now has down permanently. The active persistence owing to failing health. During her career she aided thousands of sick and homeless men, many of whom are today respectable citizens.

The work is not new to Mr. Habbick. He engaged in it among the Chicago missions during his studies, and after they were completed he was connected with missions in Evansville, Ind., and Duluth, Minn., prior to returning to California. He will hold services at the Good Samaritan every evening, and tomorrow evening will have the assistance of Miss Ruth Boyer, soloist. Tonight, Tom Brady, one of the mission converts, will conduct the meeting.

A WORLD-BEATER.

YOUNG WOMEN'S ASSOCIATION.

With every report of the Board of Managers of the local Young Women's Christian Association, the figures become more astonishing.

At the official meeting yesterday it was shown by Miss Tatham, general secretary, that the membership had reached a total of 1143. This is by far the largest association in the world, but the modest managers say little about it, except to say that they are working they are doing for homeless girls who are the glory of being the greatest organization in the world in the footstep. The average attendance of members at the rooms is 154, and the average number attending the weekly day luncheon is 137. Last year a total of 1463 were enrolled in the educational and Bible classes, and this year the first term alone has reached an enrollment of 1119. There are nine-seventeen class periods every week.

BIBLE LESSONS.

SUNDAY, NOVEMBER 5.

THE CONNECTION.

The Book of Esther gives us a view of what was going on among the Jews over in Persia, while those in Palestine were enjoying their recovered homes and their restored temple. It was twenty-nine years after the completion of the temple (516 B. C.) when the glorious reign of Darius came to an end and that of Ahasuerus, the Xerxes of history, began (486 B. C.). The Persian territory was very extensive and the capital had been established in great magnificence at Shushan, 200 miles east of Babylon, on a high altitude. It was at a very fascinating period of ancient history when Persia and Greece came into collision. Darius had sought to carry his conquest into Europe, but had been defeated by the Greeks at the battle of Marathon. Then Xerxes had led his famous army of over five million across the Hellespont and had suffered defeat at Thermopylae and at Salamis. Those battles decided that European rather than Asian civilization should rule the world. At this time "Athens was in its pride, Aristides, Themistocles and Pausanias were making themselves immortal in the annals of the world by their splendid task of founding Greek tragic poetry. Sophocles was a school-boy, and Aeschylus was a baby." It was the opening of the classic period in Greek literature.

He announced that he learned from the first two chapters of Esther, was spending his time in debauchery. He put away his sword and gave up the privileges of a courtier, at his command. When he made known his desire to receive applications for Vahsi's vacant place there were many applicants, and the Jewish maiden named Esther, who had brought her up in his family, was successful. Inspiration is a gift of God, not for the characters that appear in such imperfections, but for the representation of them and for the lessons that they teach. Mordecai, though serving about the palace, was not known as a Jew, nor was Esther. That fact was carefully concealed from the King and his court. The aged Mordecai soon had an opportunity to win the King's gratitude by informing him of a plot made by two of his chamberlains to take his life. The minister, who was infuriated with Mordecai, because the latter would not bow to him, as to a heathen, and he got Mordecai, under the slaughter of all the Jews. Mordecai gets the word to Esther and her reply is given in our text.

THE LESSON.

(10.) Then Esther spoke unto Mordecai, saying: (11.) All the King's servants are gathered about him, and I have not been called. (12.) And she told to Mordecai her words.

(13.) Then Esther said unto Mordecai, saying: (14.) If thou altogether hastest me, I will not go. But if thou wilt not, I will go. For I know that I shall come unto the King, and I shall be able to do him good. (15.) And she went in unto the King, and she stood before him, and she said: (16.) I have been called. (17.) And the King said unto her: (18.) What wilt thou? (19.) And she said: (20.) I have been called. (21.) And the King said unto her: (22.) What wilt thou? (23.) And she said: (24.) I have been called. (25.) And the King said unto her: (26.) What wilt thou? (27.) And she said: (28.) I have been called. (29.) And the King said unto her: (30.) What wilt thou? (31.) And she said: (32.) What wilt thou? (55.) And she said: (56.) I have been called. (57.) And the King said unto her: (58.) What wilt thou? (59.) And she said: (60.) I have been called. (61.) And the King said unto her: (62.) What wilt thou? (63.) And she said: (64.) I have been called. (65.) And the King said unto her: (66.) What wilt thou? (67.) And she said: (68.) I have been called. And the King said unto her: (106.) What wilt thou? (107.) And she said: (108.) I have been called. (109.) And the King said unto her: (110.) What wilt thou? (111.) And she said: (112.) I have been called. (113.) And the King said unto her: (114.) What wilt thou? (115.) And she said: (116.) I have been called. (117.) And the King said unto her: (118.) What wilt thou? (119.) MINES AND MINING.
PROSPECTORS
AT NELSON.

MINING MEN DRAW TO NEW TOWN IN EL Dorado CANYON.

Steamers on the Colorado Transport Freight at Lower Rates—Will Lease Claims to Rush Development at Bullfrog—More Grubstake Litigation to be Tried.

As a result of the activity that has been in El Dorado Canyon the town of Nelson, established a few months ago, has begun to attract attention. Where and prospectors are coming in.

The town is twenty-one miles north of Searchlight, nineteen miles west of Good Springs station on the Lake railroad and near the Colorado River. Moneyed men have added their experts, it is learned, busy quietening the surrounding country, some time and are taking up prospecting while work is being pushed on established mines, such as the Antelope, now down to the 500 foot level, and in rich ore. Nelson is expected to be a center of supplies for the surrounding territory.

There has recently been installed a new line of river steamers that will run from the Colorado River to a point near Nelson, and with the proximity of the proposed branch of the Santa Fe railroad the freight rates will be greatly reduced. The demand for coal at wages ranging from \$1.00 a ton upward is said to be great and the El Dorado Mining Company, owner of the townsite, has under consideration the erection of a fifteen-car stamp mill.

BULLFROG'S LIFE VEMENTS.
At a meeting of the directors of the Bullfrog Townsite and Ice Company recently held at San Francisco, it was decided to expend \$100,000 in erecting a custom mill at Bullfrog immediately.

Tonopah and Goldfield Railroad company has men at work planning grounds for yards, depot and terminals. Company boasts that it will have line in full operation before either the Salt Lake or the Borax Railroad. The route is a shorter one to cover the distance than that from Las Vegas to Ludlow. In anticipation of the coming of the railroad, the Wells-El Dorado has opened an office at Nelson.

WILL LEASE MINI.
The claim owners on Montgomery claim, with the exception of the Montgomery-Shoshone, have decided to lease the leasing eye, which has been in vogue in many camps and which was a prominent at Goldfield during the boom.

It undoubtedly leads to rapid development as the lesson must work to the utmost limit of speed, for time is the essential thing for them. They get what they take out during the life of the lease, less the royalty, so that naturally they seek only the highest grade of ore they can find and leave often vast bodies of rich lower grades untouched. They put on no improvements except what are absolutely essential, for they derive no benefit therefrom. During their term, Goldfield reached the height of its reputation and is now getting down to a more settled basis with the owners taking hold, establishing mills and other permanent adjuncts and preparing for the business of the future and not merely of today.

Much has been written for and against the leasing system and it is likely that there will always be differences of opinion as to its merits. With its adoption, however, it is safe to say that the full extent of Bullfrog's riches will soon become known to the world by the pushing of development to the limit. Among those who have leased their properties are John Y. McKane, the Nevada representative of C. Rick Schwab, the steam engineer; Jack Campbell and C. J. Coddie.

At Johnnie the Congress and Bullfrog-Johnnie companies have commenced the erection of bunkhouses, offices, blacksmith shops and other improvements. Some extensive development is planned for this winter.

GRUB STAKE SUITS.
Besides the litigation against the Montgomery-Shoshone Company to enforce a grub stake claim to an interest in that property, another suit involving alleged claims against the Benson-Ladd property is set for trial this month in the District Court of Nye county at Tonopah. In this case the plaintiffs, Zeb Kendall and J. O. Johnson, say that they accompanied Ladd and Benson on a prospecting tour during 1904 with the understanding that all were to share on any locations made. Just before going to Bullfrog, it was necessary for someone to return to Goldfield with a sick horse and supplies and Kendall and Johnson undertook the mission. During their absence, so they allege, Ladd and Benson proceeded to locate the claims now estimated to be worth a million dollars for themselves, totally ignoring Kendall and Johnson.

MONTGOMERY-SHOSHONE.
A deed has just been filed at Tonopah, conveying to E. A. Montgomery and his associates, the one-half interest held by T. E. Edwards, one of the original owners who now retires. Thus the title is fixed with Montgomery, except for the Finnegan-O'Brien grub stake suit now pending. The recorded price paid Edwards was \$100,000.

The District Court at Piche has decided that a deputy mineral surveyor is barred by his official position from making claims. The decision affects the title to many claims and will be appealed.

SUAVE SWINDLER.
Coal and Wood Company Successfully Sued by an Unknown Crook With Bad Bill.

An old swindling game, which appeared ever new to many people, was successfully worked yesterday by a dapper stranger on a driver for the Shelley Wood and Coal Company.

The stranger telephoned the yard asking that two sacks of coal be sent to No. 510 Mission road and requested that change for \$10 be sent along at the same time. When the driver neared his destination a man appeared in the road and asked if the coal was consigned to a party at No. 510.

"There's no one at home," said the stranger, after receiving an affirmative reply from the driver. "Just give me the change and I'll give you \$10; put the coal in the back yard."

The man handed over a \$10 bill, and the driver, supposing nothing wrong gave him \$2.50 in change. The driver found there was no such number as 510. When he returned to the yard and examined the bill he found it was one of the old worthless State bank bills issued by the defunct Merchants and Planters' Bank of Savannah, Ga.

MOTHER AND CHILD.
Let the mother take Scott's Emulsion for the two; it never fails to benefit them both. One can eat for two, but nourishing two is a different thing. It calls for a degree of internal strength that the average woman lacks. People of luxury are not very strong by habit; overworked people are weak in some functions from exhaustion or their surroundings. Scott's Emulsion can be depended upon to overcome such conditions. It is a wonderful food for a mother and child.

NAME PICKED IN SANTA ANA.

"PARADE OF PRODUCTS" THE TROLLEY EVENT.

Committee Making Plans for the Entertainment of a Large Number of Visitors at the Celebration—Feeling of the Multitude is One of the Chief Matters of Concern.

SANTA ANA, Nov. 3.—The trolley opening celebration on the 22nd inst. will have a name. The committee in charge of the arrangements met last night in the Chamber of Commerce rooms, and heard reports from different subcommittees. Hon. J. N. Anderson, of the County Board of Supervisors, reported that the citizens were responding liberally, and there would be sufficient funds to make the celebration a success. Selection of a name for the celebration was not an easy matter, and a secret ballot had to be resorted to before a name was finally selected. The name chosen was "Parade of Products."

One of the chief concerns of the committee is the feeding of the throng which is expected here on the opening day, and churches and societies were asked to serve meals and to notify the members of the Chamber of Commerce. The response was most satisfactory, and the committee feels now that ample provision will be made for all who attend.

HOME FOR POOR BOY.

Franzen, one of the trustees of the McPherson school. The former claimed that Ernest was unruly in the school, and the latter that he was a trouble maker.

They were arrested in a trap set by Sheriff Coburn and have been given ten days apiece in jail as tramps so that their record may be questioned.

Within a few minutes the blaze was extinguished and nothing but a charred wall and a tall brick chimney stood to mark the location of the building. Under the rubble the firemen found the remains of the two girls who were supposed to be beneath.

JEWEL PAWNER TURNED LOOSE.

COMPLAINANT FREES HOFFMAN OF SERIOUS CHARGE.

Arthur T. Steele Drops Prosecution of Man Who Borrowed Diamonds and Then Raised Loan on Them. Says the Fellow Has Been Punished Enough for His Act.

The charge of embezzlement preferred against John V. Hoffman formerly a member of the firm of Hoffman and Hatch, local agents for a safe company at No. 105 North Broadway was dismissed before Justice Austin yesterday at the instance of Arthur T. Steele, the complainant.

"I believe Hoffman has been sufficiently punished," said Mr. Steele last evening. "In view of the statements which he has made to me since his arrest I am willing to drop all prosecution."

Hoffman was arrested charged with embezzling a diamond ring and a diamond pin belonging to Mr. Steele without the latter's consent or knowledge. He subsequently appeared before Steele with an agreement, by the terms of which Hoffman was to return \$25, as the price of the jewels, admitting that he had pawned them, and would return their equivalent in cash as soon as possible at 10 per cent interest.

Steele refused to become a party to the agreement, and upon learning that his jewels had been pawned consulted a lawyer and had Hoffman arrested and charged with embezzlement. At the time of Hoffman's arrest he gave out various stories to a Times reporter in the office of the detective department, none of which, it appears, bore any semblance of truth. He charged Steele with having caused his arrest through a spirit of spitefulness, and stated that Steele was a discharged bookkeeper formerly employed by him.

Instead of being an accountant out of a position, Steele is the proprietor of "Ponce de Leon Coffee," a business which has been used by Hoffman and Hatch, and at various times has advanced money to the complainant. Steele's association with the company has consisted of having charge of the accounts in addition to conducting his regular business from the office of their salesroom. Despite the fact that Hoffman glibly declared Steele to be a discharged employee he now comes forth with a signed statement by which he attempts to convey the impression that the reporters were misled in their facts. His statement is as follows:

"The undersigned John V. Hoffman, do hereby declare that the statements made and published in The Times of Saturday, November 3, 1935, purporting to be a statement from me with reference to Mr. A. T. Steele have been misinterpreted and are hereby corrected. The same have been given in good faith and with all due regard to the truthfulness of the statements.

As Hoffman misled the reporters in regard to Mr. Steele he continued to use his name in connection with the business of Hoffman and Hatch. He immediately has returned the diamonds or the money to myself upon the condition that I should not make any statement to the press. He has been proved by the agreement which he exhibited to me after I had made my third and last demand upon him for the return of the property.

"A year ago I loaned the two diamonds in question to Hoffman when he contemplated a trip to San Francisco. He wanted them, as he explained, to show a good front and they were returned to me two months ago. After September 30, Hoffman came to me, having resigned his position with the safe company, and requested the loan of the same jewels for a few days. He claimed to be working on a proposition which needed an air of prosperity, and I consented to the loan as a personal matter. There was absolutely no agreement as to the pawning of the diamonds. The property was placed in a pawnbroker's hands on October 1, however, without my knowledge or consent, and subsequently learning of this fact I requested a return of the jewels, and this not being complied with I had Hoffman arrested."

Subsequently, after being released from jail on bail, Hoffman appeared before me and in the presence of witnesses tearfully explained that he had no intention of defrauding me, but being in pressing need of money had pawned the diamonds, expecting a return from the pawnshop. Being satisfied that Hoffman's offense was merely a grave error, and that he was not a defrauder, I concluded to drop the prosecution. I sincerely believe his incarceration in the City Jail was sufficient punishment."

ELKS SAY HE IS A GRAFTER.

ARREST IN PASADENA OF ALLEGED FLIMFLAMMER.

Is Alleged to Have Fraudulently Won a Pin of the Order and to Have Claimed to be a Brother from Arizona in Distress—Sutton Wed. 10:30.

PASADENA, Office of the Times, Nov. 3.—A man who had been charged with flimflaming a prominent local Elk through the overworked

he did not want his name to come before the lodge, and offered his watch, a cheap one, so the police say, as security.

It seems that when McCord went to see Medill, Druggist Green, the first victim, had already been there, so it did not take long for the astute police commissioner to see that his fellow-Elks were being flimflammed, and he hastened out and got 'copping to accompany him on a still hunt for the man.

It appears that after his unsuccessful interview with McCord, Harper assumed discretion as the superior fraction of valor and boarded the first car for Los Angeles. He was caught on Main street in that city yesterday afternoon by Detective Copping in company with Commissioner Medill.

An Odd Fellow's pin was also being worn by the prisoner and the police have reason to believe that he has been

Sutton, and herself one of the famous tennis-playing trio of Sutton sisters, the wedding to take place this evening at 8 o'clock at the residence of the bride's parents in Pasadena.

The groom-to-be is young Harold Hope-Doeg, a young Englishman who has business interests in Los Angeles, besides a quartz mine in Old Mexico, and there is quite a flavor of romance surrounding the report of the engagement and forthcoming wedding of this interesting couple.

As the story goes, Doeg met Miss Violet in the course of a tennis match in which the latter was entered at Ocean Park two years ago, and it was almost a case of love at first sight with the pair.

Later, Miss Violet again met the dashing young Englishman while participating in a match at Santa Barbara, where the bridegroom of today was then idling away a brief vacation. A party of the third part seems to have been an unrecognized though not unwelcome attendant upon the affair, and the engagement was announced in Santa Barbara before the season was over.

It was known that there were various affairs in connection with the young Englishman's estate to be settled and hence the couple decided to wait several years before being married.

The news of the happy culmination of the match as contained in the issuance of the marriage license was a day came as somewhat of a surprise, as everyone had supposed the wedding would not take place until next summer. It will be wholly unpretentious, Rev. William MacCormick, rector of All Saints' Episcopal Church, in the presence of only the immediate relatives of the pair.

During their honeymoon the couple expect to revisit the scenes of their courtship around historic Santa Barbara, and later will go to the groom's ranch in Torrey, Cal., where he is now residing. Deputy Sheriff John R. Slater, one of the best known men in the service of Los Angeles county, passed away at 7:30 o'clock last night, at the family residence at No. 50 Mary street. His wife and son were both with him at the bedside.

The deceased had been a sufferer from tuberculosis for many months, and a week ago was removed from the Glendale sanatorium, in order that he might be with his family when the end came. He was 44 years of age and had most capably filled the position of deputy sheriff for many years.

During which time he made scores of friends among the people with whom he came in contact. Last spring, his many friends put his name up in the race for appointment to the post of chief of police for Pasadena, but Slater modestly refused to be considered.

The funeral will be held at 2 o'clock, Sunday afternoon, at the residence. Members of the Masonic lodge will have charge of the services at Mountain View cemetery, where the body will be cremated.

WELCOME W.C.T.U. The visiting delegates to the late W.C.T.U. convention in Los Angeles, were guests of Pasadena yesterday, and all were delighted with the flattering reception and entertainment accorded them here.

The white ribbons came over in special cars, and were met by a reception committee composed of Mrs. Mary Coman, Mrs. Anna Pierce and Mrs. Carl, representing the Pasadena W.C.T.U., and D. W. Goodidge, A. C. Nash and A. J. Bertonneau, representing the Board of Trade. An automobile ride and carriage ride about the city consumed several hours, and was followed by a reception at Woodman Hall, where luncheon was served and addresses were made by Mrs. Stevens, national president; Miss Gordon, the national secretary; Mayor Waterhouse, and others. Many of the visitors accepted the hospitality of the Maryland Hotel in the use of the rest rooms, while others visited Throop and were shown through that institution by a committee of students. Each visitor was provided with a booklet containing views of Pasadena and vicinity, as a souvenir of the visit to the city. It was later searched by Detective Copping, in company with an officer from the Los Angeles police department.

VIOLET SUTTON'S WEDDING. Society and civic circles of Southern California will receive with an interest commingled with no small measure of surprise the news of the forthcoming marriage of Miss Violet Sutton, next eldest sister of World's Champion May

STRUCK DOWN BY BLUDGEON.

MYSTERIOUS ATTACK ON AN OCEAN PARK MAN.

Assault Occurs at the Very Door of the Home of a Young Lady Whom He Had Just Escorted from a Dance—Apparently Not a Case of Robbery.

OCEAN PARK, Nov. 3.—Ernest Koster was the victim of an unfortunate and unprovoked attack last night. The young man had been attending a dance and at a late hour had accompanied a young lady to her home on Hill street.

Soon after leaving her two shots were heard, and Koster fell unconscious at the door from which he had just departed. He had been felled by the blow of some dull instrument, and it was several hours before he had sufficiently recovered to let it be known that he had been attacked by an unknown man.

Koster was a couple of shots at his assailant, and was then struck over the head with a bludgeon. Considerable mystery attaches to the "fair, as robbery was apparently not the motive of the attack.

COLEGROVE. OIL FOR THE ROADS. COLEGROVE, Nov. 3.—Residents of the unincorporated community of Colegrove are at last to have their patience rewarded. The Road Supervisor has commenced the long neglected task of oiling the streets, which, are county roads.

The carpenters are now enclosing the block on Santa Monica avenue. This is a two-story structure, 50x75 feet, that is being erected at a cost of \$7000.

The public school shows an attendance of more than a hundred, which is an increase of 25 per cent. over the corresponding period of 1904.

Considerable public improvement is being made in the several subdivisions. These consist of concrete sidewalks and curbing.

HOLLYWOOD. BUYS FOR NEW "CENTRAL." HOLLYWOOD, Nov. 3.—The Home Telephone Company has purchased 72x200 feet on Vermont avenue, south of Bennett, for a stated price of \$1000.

Here the company plans to erect a new central office for this part of the city. The new building will be a two-story structure, 50x75 feet, that is being erected at a cost of \$7000.

Ferdinand Allins was fined \$200 in Judge Herndon's court today, for conducting a blind pig in an alley near Sunset boulevard and Western avenue. He paid the fine and was then served with a subpoena to appear as witness against George L. Crox, of Los Angeles, who is charged with being the owner of the place operated by Allins. A warrant was issued for La Crox Thursday.

Ex-Senator Cole has filed a protest with the City Trustees against an arrangement for the care of storm water as shall result in damage to his property at Colegrove.

The boys at the Grant and Fremont schools have organized baseball teams. Prof. Clarke has offered a pension for the winning team for the year.

Charles L. Moteller, of Los Angeles, has purchased the Hollywood Sentinel.

MONROVIA. CUTTERS STAY ABOARD. MONROVIA, Nov. 3.—The attorneys of E. Kendall Cutter and his wife, who have had so much of their work undone by the frequent reconciliations between the couple, will probably find their advice more closely followed. E. Kendall has gone on a long journey eastward and Mrs. Cutter is said to be in ignorance of his whereabouts.

The Cutter home has been the scene of busy packing up this week. The sister of the young man, Mrs. M. C. Cutter of Pelham, N. J., has taken charge of the affairs and Monrovia has not seen him for the past week. A generous spender always, Cutter will be missed by the local tradespeople, but outside of them he had few affiliations with Monrovia residents, his friends coming from Los Angeles. The Jap cook, Frank, has charge of the residence here. No authoritative statement of Cutter's destination has been given out.

LIBRARY BUILDING. The women of the library board are entertaining plans for the building of the 10,000 Carnegie gift. Many leading architects of Los Angeles will compete for the award. The award will be made next week, but the building will be delayed until the philanthropist has seen and approved the ones decided upon.

ALK AT FIVE DOLLAR DINNER. PIER DAY BANQUET TROUBLES AT LONG BEACH.

Citizens Offer Loud Protest Against the Price of the Food-Committee Will Have a Meeting to Try to Adjust the Difficulty—Talk of "Snoos" and "Four Hundred."

LONG BEACH, Nov. 3.—The arbitrary price of \$5 for ball and banquet tickets on Pier Day has evoked much criticism in the city and the committee is having an unhappy time of defending its position.

In this staff town, noted for Chautauqua and camp-meetings there are hundreds of prosperous citizens who object to dancing but would be willing to put up for the banquet, but object to paying for something in which they do not indulge and which they do not approve.

Then there is another class which does not dance and is content with the contents of the home larder, yet would like to be present as spectators but not at \$5. The committee, however, says it cannot draw the line and the two objecting classes of citizens are crying "snoos" and "select 400" and refuse to be placated.

A special meeting of the general committee is called for Saturday night when it is hoped to hit on a plan that will please generally.

Only the finishing touches remain on the new auditorium and everything will be in readiness for the opening on the 15th inst. The 50,000 feet of floor space has been cleared of rubbish and now only awaits the arrival of an electric polishing machine to make it ready for the ball.

Carpenters are erecting the raised platforms on the stage for the accommodation of the band and these are in sections to be readily moved. Three thousand opera chairs have arrived. Two hundred additional electric lights have been placed, a total of 210 in the building.

The rooms for the band at the southwest corner of the building are equipped with lockers and one room is to be fitted up as a musical library. The two rooms in the towers will be occupied as special headquarters for the Board of Trade and the City Trustees.

In order to test the acoustic properties of the hall, the band will hold its rehearsal there Saturday afternoon.

SEASHORE TOWN. The First Presbyterian Church last night was thronged at the reception to the new pastor, Rev. Josiah Sibley and Assistant Pastor Rev. Robert Cleland and his wife. Addresses were made by leading members of the church and by the pastors of other protestant churches. These were responded to by Revs. Sibley and Cleland. Interspersed with the addresses were several musical recitals. The church was prettily decorated in greenery and flowers.

Dr. R. S. Oakford, junior member of the Wolf-Oakford Drug Company, and a City Trustee, today received notice of his appointment by Gov. Faries as a member of the State Board of Pharmacy. The appointment came unsolicited.

The postoffice receipts for October were \$220.74 as against \$188.35 for the same month last year, an increase of \$32.39 a fraction over 51 per cent.

Capt. William Graves in the launch "Twilight" yesterday snagged at a depth of 1000 feet a vegetable growth fifteen inches long, round and hollow and covered with sharp spines, on many of which were imbedded tiny devilfish. The growth was attached to a porous rock. It was later identified as a glass sponge. It was on exhibition at a local fish market.

Saturday afternoon the Long Beach and Compton football teams will play a match game on the tide flats west of town.

John Orth, serving a jail sentence of ten days for drunkenness, was working on the lawn adjoining the idea pavilion today when the Salt Lake train came along. As the train pulled out for San Pedro Orth dropped his rake and with a short run caught the last car and passed out of sight of Park superintendent Buchanan, under whose eye he was working.

The Elks' Lyceum gave its opening event, the Slaxon Jubilee Singers, to-night at the Tabernacle. This is the first attempt at an elaborate course of entertainment in Long Beach and the advance sale of tickets for the course is believed to assure success.

WHITTIER. RECOVERS STOLEN RIG. WHITTIER, Nov. 3.—Constable Bryant of Azusa came to Whittier Thursday in search of a Mexican who stole a buggy a few days ago. In company with Justice Gidley he drove to the King Ranch and found both the Mexican and the buggy.

Arrangements are being made to entertain the winter at Long Beach in 1906. Mr. Bigham takes in part trade a residence in Seattle, valued at \$5000; he has for years owned considerable property around that city. After spending the winter at Long Beach he will move to Seattle to reside.

Miss Alice Reed of Simcoe, Canada, arrived here today and will spend the winter visiting relatives in La Verne. Miss Reed spent the winter here two years ago and her letters to the Cynos press eulogizing this "Land of Fruits and Flowers" attracted much attention and were the means of sending a number of settlers here.
